

TALK **TECH** TO ME

OUR PROMISE

We deliver independent, defensible truth about your roof free from sales pressure, financial incentive, or opinion so every decision is made with clarity, confidence, and long-term asset performance in mind.

How Legacy Turns Roof Data into Defensible TRUth

Enterprise- Grade Aerial Capture

- Survey-grade GPS accuracy
- High-resolution imaging
- Consistent equipment
- Georeferenced flight paths

Speed. Safety. Precision.

- Rapid deployment & no roof access delays
- Minimizes personnel exposure
- Exact measurements
- No guesswork

Where Failure Actually Starts

- Thermal imaging & drainage analysis to find issues **BEFORE** leaks occur

Local, Full-Time Drone Pilots

- Full-time
- Legacy certified experts
- Roof- specialized
- Consistent
- Defensible Data

**Your roof isn't a problem.
It's just misunderstood**

LEGACY
TECHNOLOGY LAB

The Difference Isn't the drone. It's the System.

- Standardize methodology across sites
- We flag anomalies & high-risk deltas
- We govern action plans & accountability cycles
- Time-stamped documented decisions for defensibility

Built for What's Next

- Advanced capabilities
- Scalable solutions
- Future-ready technology
- Collaboration with MIT NDT Lab
- Research-led methodologies
